

Mike is curious and decides to take the color test and answer the questions. He is looking for his friend plant.

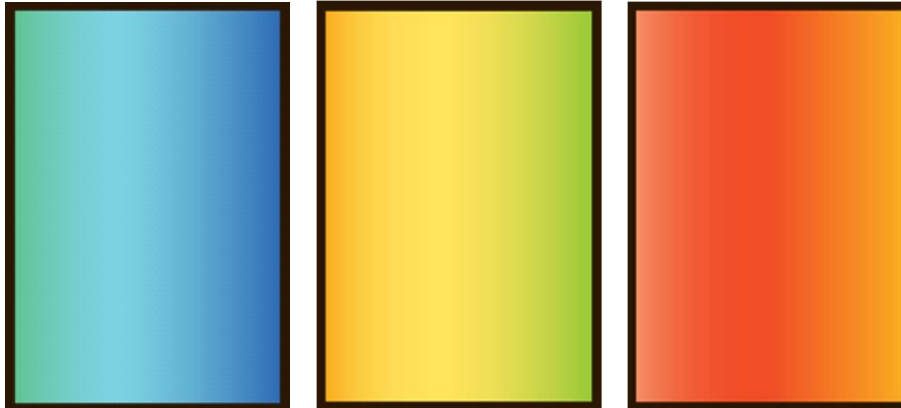

He chooses from among the basic colors proposed 1 color: indigo

Subsequently, from a choice of colored cards, he chooses another 1.

Mike repeats the process two more times, at the end he has 3 degraded cards.

Mike answers questions.

In which city or town do you want to install your new plants?

"London"

In which room do you want to install the plants? What is the level of sunshine?

"I want to put it in my office and there is a lot of light."

Note any special requests

"I would like a plant that is hardy."

After about a week of study Mike receives a list of plants to chose from (max3 depending on the service). Later on he gets the name of his plant/s, its origins, care instructions, cards color analysis, plant spectrum and message.

Mike's plant is a CROTON.

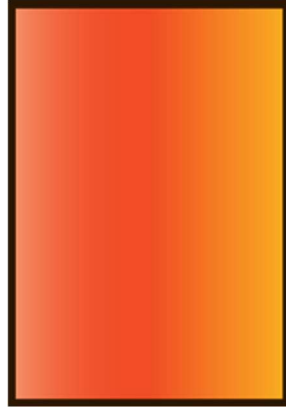

Identity card and maintenance tips:

- Croton, Codiaeum
- Family: Euphorbiaceae
- Height: 60-100 cm
- Diameter 30-45 cm
- Leaves: colorful
- Flowering: summer, small yellow flowers in the form of a star
- Exposure: a lot of indirect light
- Watering: important
- Origin: forest of Malaysia and Pacific Islands

The Croton requires steady warmth all year long, otherwise it loses its leaves and dies. During the growing season, from March to the end of October, keep the plant in a bright place with lots of indirect light ...
